Boy Scout Troop \$15/person x _____ = \$ _____

optional Hat \$15 x _____ = \$ _____ T-shirt \$15 x _____ = \$ _____

EDGE is very basic, but it really does work. It will help Cub Scouts learn and retain skills also. So it is not only for Boy Scouts and Venturers, but for den leaders also.

The EDGE method is a four step method for teaching a skill:

- Explain
- Demonstrate
 - Guide
 - Enable

Explain: First explain what you will be doing. Tell them the steps involved. Visual aids might be helpful for this step. Use questions to gauge their understanding.

Demonstrate: Show them how to do the skill. Demonstrate the steps using the actual materials. Describe what you are doing.

Guide: Let them practice the skill. Guide and coach them as they try to do it themselves. This step will take the most time.

Enable : Enable them by letting them do the skill themselves without any intervention.
